ABOUT ME

Motivated Cybersecurity student with hands-on experience in Vulnerability Assessment, Penetration Testing (VAPT), and Incident Response. Skilled in analyzing network traffic, securing applications, and using tools such as Burp Suite, Wireshark, Nmap, OWASP ZAP, and Wazuh. Strong analytical mindset and quick learner with a passion for protecting systems against evolving cyber threats.

TECHNICAL SKILLS

- Network Security
- Application Security
- Penetration Testing
- Vulnerability Assessment
- Incident Response
- Digital Forensics
- Malware Analysis

EXPERIENCE

Invesics Cyber Forensics — Application Security & VAPT Intern **Dec 2024 – Jul 2025**

- **Performed application-level penetration testing** using OWASP ZAP and Burp Suite, identifying injection flaws and misconfigurations.
- Assisted in **security audit documentation** and remediation tracking for internal applications.
- Collaborated with the team to **simulate cyberattack scenarios and strengthen incident response** workflows.

Infopercept Consulting Pvt. Ltd. — Cybersecurity Intern **Jul 2024 – Aug 2024**

- Gained practical knowledge of the **incident response lifecycle and threat detection** techniques.
- Used **Wazuh for continuous monitoring and analysis of system logs** to identify suspicious activity.
- Assisted in improving detection and alert correlation processes within the SOC environment.

Tech Defence Pvt. Ltd. — Cybersecurity Intern **Jul 2023 – Aug 2023**

- Conducted **web application assessments** aligned with OWASP Top 10, using Burp Suite and manual testing methods.
- Participated in tabletop exercises simulating red-team and blue-team defense scenarios to enhance attack response skills.

- Documented key findings and suggested improvements to **strengthen network and application security** posture.

EDUCATION

B. Tech in Computer Science Engineering (Cyber Security Specialization) Silver Oak College of Engineering & Technology	2021 – 2025
Higher Secondary (HSC) Sanskar Bharti Vidhyalay	2019 – 2021
Secondary School (SSC) Citizen's School	2018 – 2019

PROJECTS

Reconnaissance Extension Tool

- **Developed a browser extension to automate reconnaissance** tasks: detect APIs, identify basic SQL injection points, perform technology fingerprinting, enumerate subdomains, and test host connectivity.
- Built with JavaScript and network libraries, the tool reduced manual recon time and improved attack surface mapping during VAPT.

Web Application Security Lab

- Built a local test environment using **DVWA and Metasploit** to practice exploiting and patching OWASP Top 10 vulnerabilities.
- Automated vulnerability scanning using **Nmap, Nikto, and OWASP ZAP**.

CERTIFICATIONS

- Fortinet Network Security
- APISEC API Penetration Testing

ADDITIONAL INFORMATION

- **LANGUAGES:** English, Hindi, Gujarati, Marathi
- **SOFT SKILLS:**
 - Problem Solving
 - Analytical Thinking
 - Time management
 - Continuous Learning
